FilidiSeta 2006 (1 mano)

FilidiSeta 2006 (2 mani)

La sensazione lussuosa di un Muro ricoperto di pura Seta con la sua magica lucentezza e il contrasto dei suoi Fili Opachi in 169 Colori. La sua natura filante aiuta a nascondere eventuali imperfezioni dei muri. Offre una buona lavabilità ma può essere ulteriormente protetto con Vetro Lucido o Opaco per una Garanzia di Lavaggio Integrale. È un rivestimento a base di Resine acriliche e Sabbie Naturali. Si stende con il nostro pennello in una mano. Se si desidera una maggiore quantità di "fili" può essere applicata una seconda mano di FilidiSeta.

I colori riportati nelle seguenti pagine si ottengono miscelando i nostri Additivi seguendo la tabella riportata qui sotto. I consumi nella applicazione possono variare in base alle superfici e agli assorbimenti. La media dei consumi è riportata nella tabella qui sotto.

Colors presented in the following pages are obtained by mixing our Additives in accordance with the following table. Amounts needed for application can vary based upon surface and absorption properties. The average consumption is listed in the table below.

Les couleurs reportées dans les pages suivantes s'obtiennent en mélangeant nos additifs en fonction du présent tableau. Les données relatives à la consommation en cours d'application sont reportées dans le tableau suivant. La consommation moyenne y est indiquée.

Die auf den vorherigen Seiten angegebenen Farben werden erzielt, indem unsere Zusatzstoffe dieser Tabelle entsprechend gemischt werden. Der Verbrauch bei der Anwendung kann je nach Oberfläche und Absorption variieren. Der Durchschnittsverbrauch ist in dieser Tabelle angegeben.

Los colores mostrados en las páginas siguientes se obtienen mezclando nuestros Aditivos siguiendo esta tabla. El consumo en cada aplicación puede variar dependiendo de la superficie y la absorción. El consumo medio se muestra en esta tabla.

Culorile raportate in paginile urmatoare se obtin amestecand colorantii nostri urmarind tabelul de mai jos. Consumul variaza in functie de suprafata si absorbtie. Consumul mediu este raportat in tabelul de mai jos.

Οι αποχρώσεις που παρουσιάζονται στις προηγούμενες σελίδες έχουν αναπαράχθει με την χρήση των χρωστικών μας, ακολουθώντας τον παρακάτω πίνακα. Η κατανάλωση προϊόντος ανά τετραγωνικό μέτρο μπορεί να διαφέρει ανάλογα με την επιφάνεια και την απορροφητικότητα της. Η μέση κατανάλωση αναφέρεται σε αυτό το πίνακα.

The sumptuous feeling of a wall covered in pure silk with its magic shine, and the contrast offered by its matt threads in 169 colours. Its threadlike nature helps hide any imperfections in the walls. It offers good washability but can be further protected with Vetro Lucido or Vetro Opaco for a complete washability warranty. This contains acrylic resins and natural sands. If you would like more "threads", apply a second coat of FilidiSeta.

Un mur habillé de pure soie, pour une sensation de luxe raffiné, avec son aspect merveilleusement chatoyant et sa texture contrastée de Fils Opacques en 169 Couleurs. Sa nature fluide permet de dissimuler les imperfections des murs. Offre une bonne lavabilité mais peut être protégé davantage grâce à du Vetro Lucido ou Opaco pour une garantie de lavage intégral. C'est un revêtement à base de résines acryliques et de sable naturel. Il s'étale à l'aide de notre pinceau d'une main. Si une plus grande quantité de «fils» est requise, une deuxième couche de FilidiSeta peut être appliquée.

Das luxuriöse Gefühl einer mit reiner Seide überzogenen Wand. Der magische Glanz und der effektvolle Kontrast lässt die Wand wie mit matten Fäden behangen erscheinen. Erhältlich in 169 Farbtönen. Die Natur der Fäden begünstigt das Verdecken von eventuellen Schönheitsfehlern der Wand. Sie bietet eine ausgezeichnete Abwaschbarkeit, kann jedoch des Weiteren mit Vetro Lucido oder Vetro Opaco geschützt werden, um eine vollständige Reinigungsfähigkeit zu gewährleisten. Eine Beschichtung aus Acrylharz und Natursand. Sie wird in nur einer Schicht mit unserem Pinsel aufgetragen. Sofern eine höhere Anzahl an „Fäden“ gewünscht wird, kann eine zweite Schicht von FilidiSeta aufgestrichen werden.

La lujosa sensación de un Muro recubierto de pura Seda con su mágica luminosidad y el contraste de sus Hilos Opacos en 169 Colores. Su naturaleza filamentosa ayuda a esconder la mayoría de las imperfecciones de las paredes. Ofrece una buena lavabilidad, pero puede protegerse ulteriormente con Vetro Lucido u Opaco para garantizar un lavado integral. Es un revestimiento a base de resinas acrílicas y arenas naturales. Se aplica con nuestra brocha en una mano. Si se desea una mayor cantidad de "hilos", se puede aplicar una segunda mano de FilidiSeta.

Senzația luxoasă a unui Perete acoperit cu Mătase pură, cu licărinile sale magice și cu contrastul firelor sale opace, în 169 de culori. Caracteristicile sale filiforme contribuie la ascunderea eventualelor imperfecțiuni ale pereților. Oferă o lavabilitate bună, dar poate fi protejat suplimentar cu Vetro Lucido sau Opaco pentru Garanția unei Spălări Integrale. Este un material de finisare pe bază de Rășini acrilice și Nisipuri Naturale. Se aplică cu pensula noastră specială într-un singur strat. Dacă se dorește o cantitate mai mare de "fire", se poate aplica un strat suplimentar de FilidiSeta.

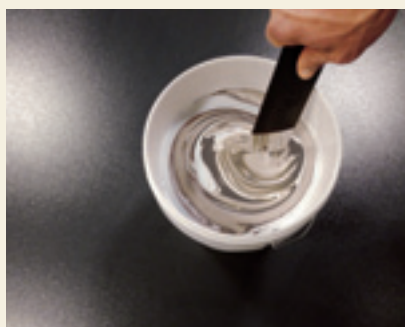

Οι πολυτελείς αισθήσεις ενός καθαρού μεταξωτού τοίχου με τη μαγική του λάμψη και την αντίθεση των οπτικών μεταξένιων κλωστών σε 169 αποχρώσεις. Η εκλεπτυσμένη του φύση βοηθά στην απόκρυψη οποιωνδήποτε ατελειών του τοίχου. Είναι πλεονόμιο αλλά μπορεί περαιτέρω να προστατευτεί με την ρητίνη Vetro Lucido ή Opaco για πλήρη εγγύηση πλυσίματος. Είναι ένα διακοσμητικό χρώμα νερού με βάση ακρυλικές ρητίνες και φυσική άμμο. Εφαρμόζεται με το πινέλο μας σε μια μόνο στρώση. Εάν επιθυμείτε πιο πλούσιες εικόνες «μεταξένιων νημάτων», μπορεί να εφαρμοστεί μια δεύτερη στρώση FilidiSeta.

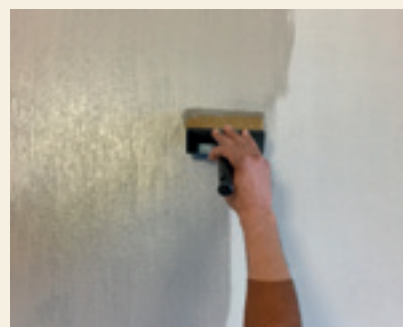

Applicazione Primus Sabbia

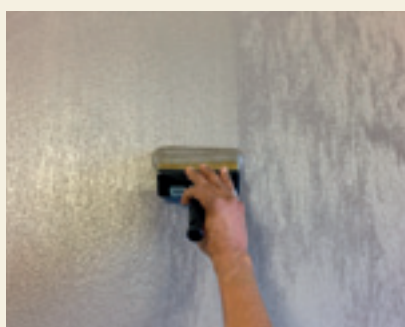

Colorare FilidiSeta

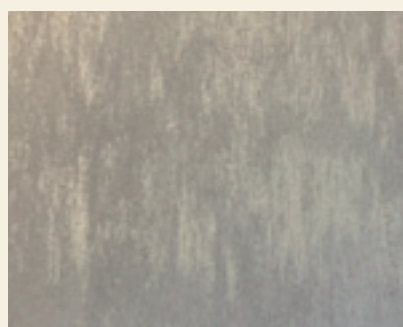

Miscelare bene il prodotto

Distribuire il prodotto in parete in senso verticale per mantenere e disegnare l'effetto filante di FilidiSeta

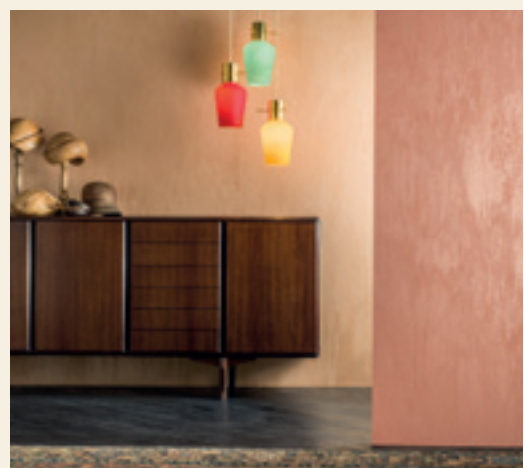

Se lo desiderate, dopo alcune ore a parete asciutta applicare una seconda mano per rendere l'effetto più pieno ed omogeneo mantenendo il senso verticale della applicazione e disegnare FilidiSeta sulla parete

Lasciare asciugare

Il video applicativo è disponibile su: www.giorgiograesan.it/video/filidiseta
